The shows

"Just An Ordinary Day" Photographer: Luis2

"Just An Ordinary Day" – circus

Imagine two women performing mind-blowing partner acrobatics, without even the stability of the ground underfoot. At rola-bola, balance becomes imbalance in a fraction of a second. Lotta and Stina will surprise you with their graceful power, innovative skills and their irresistible 50's look.

"Look Mum, No Hands!" – circus

A tender performance about friendship and growing up. It explores a story of two friends who, in their aging, test their own limits. Together they explore freedom and take risks. They see how change happens, depending on who you are.

"Young Cirkus" – circus

Young circus enthusiasts come to Rydal from far and wide. Fantastic and crazy arts are offered from Norrköping's Youth Circus, Mark, Borås and Varbergs Culture Schools, from De unga Falkarnar, from Cirkuskvarnen and from our special quests from Germany.

"Traces of Hooping" – circus och music

A performance in dialogue between the artists and the audience. An experience of what traces an authentic movement will leave behind and of what kind of movement wants to arise after a certain kind of trace. On stage you meet a dancer, a musician, a round white platform, charcoal, dry pastels and hoops.

"Out of this world" – vertical dance & music

This year's site-specific artwork is a gift from Wanda Moretti to Nycirkusfestival Rydal. The work will be performed at the mills chimney.

”LoveBar” – vertical dance & music

Choreographer Wanda Moretti’s new vertical creation is an adaptation of Marco Gnaccolini from Carlo Goldoni’s ‘La Bottega del Caffè’. The eighteenth century comedy has been translated into a veritable physical score through a vertical dance choreography. Marco Castelli has composed pieces rich in echoes and allusions, representing the universality of characters and painting characters and worlds in which we live.

”Nora” – circus, dance, theater och music

A performance of strength and vulnerability, fear and courage, doubt and decision. Director Anna-Katharina Andrees and six artists portray an inner world of experience in a collage of circus, dance, theater and music.
